DETAILED ACTION

1. Claims Status: 1-18 are rejected.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 3, 6, 11, and 14, rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The term “twice selected” is supported by the specification, verification is required

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Regarding Claims 2, and 10, Bosch discloses a method wherein the medical report further comprises a plurality of group sections, and automatically copying electronically each pre-chosen finding into a group section of the plurality of group sections which corresponds to the pre-chosen finding (see Fig. 17, Bosch).

4. Regarding Claims 3, 6, 11, and 14, Bosch discloses a method further comprising: receiving a twice² selected pre-chosen finding, the twice selected pre-chosen finding being previously selected and copied into the summary section of the medical report (see Fig. 18, Bosch); and

automatically removing electronically the twice³ selected pre-chosen finding from the summary section of the medical report (see Fig. 18, Cancel button, Bosch).

5. Regarding Claims 4, and 12, Bosch discloses a method further comprising selecting the pre-chosen findings from a list of available findings (see Fig. 20A step RI Bosch).

6. Regarding Claim 5, Bosch discloses a method further comprising
